

LED Emergency / Exit Sign

 TIS EGL5

Application

This luminaire is designed to use for safety reason in case of emergency situation.

Specification

Housing	Electro-galvanized steel
Finishing	Epoxy powder coated in white grey
Charger	Fully automatic solid stage with constant voltage and limit current charging
Battery	Lithium Iron Phosphate, 3.2V 6Ah
Dimension	220x65x220 mm.
Mounting	Surface
Safety	Low-high voltage cut-off to protect under discharge, over charge of battery. AC/DC fuse is well prepared to protect input and output short circuit
Power	2x9W
Light Source	LED Module
Colour Temperature	3500K
Luminaire Output	2x420 lm
Power Supply	220-240VAC, 50Hz
Insulation Class	I
IP Rating	20
Equivalent	2xHAL 55W
Remarks	3 Hrs. Back-up time
